Something about you
That makes me feel bad
I wasn't there when a thin line
Destroyed your soul

I search every corner
There's nowhere to hide
How I feel ignorance
Sacrifice some days it's harder
Let's face it, it's all about me
Deeply into your own

Deep within me
Life's crawling and wasting my days
Another night gone and I know there will be another way
I'm leading myself to be free in this eternal goodbye

Something about you
Will make me stronger
Now I'm aware when a man falls
Rebound, my fault

I search every corner
There's nowhere to hide
How I feel ignorance
Sacrifice some days it's harder
Let's face it, it's all about me
Deeply into your own

Deep within me
Life's crawling and wasting my days
Another night gone and I know there will be another way
I'm leading myself to be free in this eternal goodbye, goodbye

Here I wanna be (no more lies)
Here I wanna be (no more lies)

Here I wanna be, here I wanna be (no more lies)

Here I wanna be (no more lies)

Here I wanna be

Deep within me

Life's crawling and wasting my days

Another night gone and I know there will be another way

I'm leading myself to be free in this eternal goodbye, goodbye

Deep within me

Life's crawling and wasting my days

Another night gone and I know there will be another way

I'm leading myself to be free in this eternal goodbye
