I've got no friends,  
I'm lying on tears,  
but I'm livin' on,  
Livin' on the radio that's my dream

Stone river eyes  
And a lonely heart  
If I'm living on the radio  
They won't tear me apart

10 stems and roses on the tree  
10 steps and lonely nights  
But you've still got me  
On the road  
Road paved in gold

Baby you must believe  
Baby you must be free  
Keep living on, living on the radio  
That's my dream  
Baby you've gotta friend  
And so many little monsters, yeah  
Keep living on, living on the radio

And when there's nowhere to go  
And all your friends are gone  
And you only got your daddy to call  
You will be all right, honey  
'Cause your songs are on the radio

'Cause you sure would miss, all the caviar  
The champagne and the sold out shows  
But it will be all right honey  
'Cause your songs are on the radio
