The way you take over the floor
Your style, your grace, I'm wanting more
The way you move under the strobe
Has got me losing all control

I see you from across the room
There's nobody in this place but you
Just take my hand, let me take you away
By the music is going and going

Can I have this dance
I've been waiting to get with you all night

All I need is one chance
So follow me into the spotlight

All I need is one dance with you, you, you, you, you,
you
All I need is one dance with you, you, you, you, you,
you

So take your time, don't be afraid
I just take your hand and grab my way
Get close to me, I feel the heat
Boy you 'bout to drive me insane

I feel your heart beating with mine
The mood, the space, the stars align
So take my hand, let me take you away
By the music is going and going

Can I have this dance
I've been waiting to get with you all night

All I need is one chance
So follow me into the spotlight

All I need is one dance with you, you, you, you, you,
you
All I need is one dance with you, you, you, you, you,
you

Baby

Never thought that you'd be feeling the same way
So caught up in the rhythm, the way that you moving
I'm so into it, I hope the music never stops

Can I have this dance
I've been waiting to get with you all night

All I need is one chance
So follow me into the spotlight

All I need is one dance with you, you, you, you, you,
you
All I need is one dance with you, you, you, you, you,
you

Oh, dance with you, oh
Oh, I see no one here but you, yeah
