Old lover, old lover
Pass the silver, silver revolver
Old lover, old lover
Pull the trigger, pull the trigger
You let me die

Hey mama, oh mama
I found a never?, a four leaf clover
Stormy weather, stormy weather
Inside a fire, friends will?
Inside I die

It's all in my head

All I've ever been to myself
Is my own enemy

Oh lover, oh lover
Pass the silver, silver revolver, yeah

It's all in my head
It's in my

All I've ever been to myself
Is my own enemy
