Sit on your knees what a marvelous day we're going
to rhyme like a dinosaur and be shaped like a leaf.
1, 2, 3 everybody gets off the floor. 1, 2, 3 count 'em
1, 2, 3, 4.
Ever wonder why people accuse me for something I
didn't do in the first place and yes I could fuckin'
admit it.

Ever think about all the ways you think about yourself
When only words without its meaning can turn to
nothing but the dust let all the worst behind you.

Let alone, let alone those times we spent trying to find
your way.
Remember, remember when we where friends you
would always make me laugh at
All your stupid jokes surrounding your ignorance.
Fall you gotta fall you gotta fall back down you gotta
fall just a little bit.
Fall you gotta fall you gotta fall back down. Fall back
down. Fall back down
Just a little bit

Sing you're a little bit closer to life I swear oh shit.
You, you better exclude yourself from this room.

Remember, remember when we where friends you
would always make me laugh at
All your stupid jokes surrounding your ignorance.

Though we're medically screening our bodies and all
we can do is shake our heads in doubt for what we
can't explain. That's a shame
