Check out d vibe that I am create

You want me to stop well it's too late
Want me to flow? Ha ha never me
Neva hesitate to drop the mic'
I never hesitate to do what I like

Neva hesitate to pick up my fight
At the things that challengin' at my vibe
Continue? Yes I'm sure
Get off my little cannibal

I will leave it so old so old like a beat up whore
Eyes them after a dumb hard draw
High ten lyrics them against the law
Be lame right now when the girls so flaw

Eatin' bread and water
My living can count its slaughter
With a order, have you come to a decision?
Yes, she's going to [Incomprehensible]

Don't send me there
The beef for my livin' just get u no war
Don't really care write what I like
Say every type of prayer oh yeah be aware

Yo a little bit of shhh for me
A little bit of quiet for the MC
A little bit of shhh for me
Make way for the S O V

A little bit of shhh for me
Now shut ya mouth for the MC
A little bit of hush for me

Right now it's the S O V

Rite haha

Don't joke with us, move forward please

Thank you, thank you

Yeah, about one nightstand

What you think of my stands?

Right now how it sounds I go zippy cold hands

An acoustic band got some hands up some hands

All my fans I'm in trouble uh, oh

Down saw the pollution man go down

Well, I make up noise like pots and pans

They should put my voice on a ice cream van

That way the streets won't be bland

Big headed no cough headed yes

I must confess well, I'm never gonna rest

Well, done less I don't wanna mess

Here comes the press

Never them reporter

Obsessed with my disorder

Diagnosis please what's wrong with her Bill?

She's ill, nah she's sick

Yo a little bit of shhh for me

A little bit of quiet for the MC

A little bit of shhh for me

Make way for the S O V

A little bit of shhh for me

Now shut ya mouth for the MC

A little bit of hush for me

Right now it's the S O V

Oh my God, Pete Ellis

It's cold there's a new top girl on row

Runnin' ting, running ting, running ting

Everything, oh, you been told?

Twisted shit lyk wen I gully

So let me carry on while u sit back and vomit

Some sit crooked like Wallis and Gromit

'Cause you know, you can't stop it

Some don't like me like the homeless

Spitters of Madonna's story unpoorly

Let's keep writin' surely you could ignore me

But then again if you saw me you'll adore me

'Cause I'm so cute and scrawny
Spit on a track and leave it so horny
And who taught me? Nobody
I did it all by myself, you can't stop me

Yo a little bit of shhh for me
A little bit of quiet for the MC
A little bit of shhh for me
Make way for the S O V

A little bit of shhh for me
Now shut ya mouth for the MC
A little bit of hush for me
Right now it's the S O V

It's okay, it's alright you can
You can start making some noise now if you like
Ya know what I mean right?
I'm not gonna go completely off the rail
Ya know what I mean? Ha thank you

Hey, alright, alright, alright, alright
Now calm down please, please, please
Alright just a little bit of shhh

Yo a little bit of shhh for me
A little bit of quiet for the MC
A little bit of shhh for me
Make way for the S O V

A little bit of shhh for me
Now shut ya mouth for the MC
A little bit of hush for me
Right now it's the S.O.V

Yo a little bit of shhh for me
A little bit of quiet for the MC
A little bit of shhh for me
Make way for the S O V

A little bit of shhh for me
Now shut ya mouth for the MC
A little bit of hush for me
Right now it's the S O V
