E'rybody in the club gettin' tipsy
Oh, f*** that, just whine like a gypsy
Can't see straight like I got one eye
Your bottle opener or mine?

Let's get started
Move ya arms 'round like f***ed up karate
Ohh, s***, my word play's nasty
Ohh, s***, don't put it past me

Move, titch, get out the way
Now enough of that, I'm here to stay
Flow lazy
Pick the pace up when I flow less hazy

J-Lo's got a batty
Well, you can't see mine
'Cause I wear my trousers baggy

Anyways, yeah, let's commence

Everybody get random, all gyal them, all man them
Everybody get random, just do somethin' random
Everybody get random, all gyal them, all man them
Sovereign get random, just do somethin' random

Smokin' kills and so do my lyrics
If you're poppin' pills then trust you're not with it
'Cause I got the skills and I'm over the limit
Dishin' lyrics like meals every second every minute

Ding, dong, special delivery
Biggest midget in the game, can't get rid of me
Give me just a minute and I'll in be your vicinity
My words hurt you just like losin' virginity

Well, I'm right there
Naw, tell a lie 'cause I'm right there
Right hurr, nah, right here
Now get off your churr, I mean chair

Some English MC's get it twisted

Start sayin' cookies instead of biscuits

Anyways, yeah, let's commence

Everybody get random, all gyal them, all man them

Everybody get random, just do somethin' random
Everybody get random, all gyal them, all man them
Everybody get random, just do somethin' random

Everybody get random, all gyal them, all man them
Everybody get random, just do somethin' random
Everybody get random, all gyal them, all man them
Sovereign get random, just do somethin' random

Yo, get up and do somethin' random
Yo, watch it now

One, two, Sov is comin' for you
Three, four, better lock your door
Five, six, well I'm full of tricks
So everybody come and vibe with the little titch
Switch

Just check how my flow differs
I'm droppin' lyrics like a hole droppin' knickers
I'm on a whole other level, I'm old school
Like [Incomprehensible], fry up the Snickers

This s***'s hot, where the sniffer though?
Let's get random, zagga, zagga, zagga, yo
You wanna come and test me, well, bring it on
This is the new ting, the new sing along
