Beautiful world...

Beautiful world  
On the planet of love  
Only lovers and friends  
In this wonderland...  
In a beautiful world  
I'm going out of control  
Nothing to hide  
Everything is right...

There's a game to play  
It brings u so much joy  
There's a special place  
So close to heaven

Don't be scared to fly  
Beyond the moonlight  
If you ease your mind  
Well be together...

Beautiful world  
On the planet of love  
Only lovers and friends  
In this wonderland...  
In a beautiful world  
I'm going out of control  
Nothing to hide  
Everything is right...  
In a Beautiful world  
On the planet of love  
Only lovers and friends  
In this wonderland...  
In a beautiful world  
I'm going out of control  
Nothing to hide  
Everything is right...

I believe in dreams  
Show me how you feel  
Start over again  
Connection to heaven

You know what I mean  
We'll have a good time  
I'm the freak you need  
It could last forever

Beautiful world  
On the planet of love  
Only lovers and friends  
In this wonderland...  
In a beautiful world  
I'm going out of control  
Nothing to hide  
Everything is right...  
In a Beautiful world  
On the planet of love  
Only lovers and friends  
In this wonderland...  
In a beautiful world  
I'm going out of control  
Nothing to hide  
Everything is right...

In a beautiful world  
I'm going out of control...

Beautiful world...

Beautiful world!

Maldec the Almighty forever
