Lady Violet
Calling Your Name
Calling your name...

Calling your name
All through the night
I need your body by my side
Taking my hand, taking my soul
That's all I wanna let you know

There is no reason
I think you're going away
Because the words I said
Are not real lies.....

There is no reason
I feel this loneliness
I have done my best
Lovin' you inside

You, you can't deny
My love feels so strong
You can not find
I, I can not wait
For love any more, more, more, more....

Calling your name
All through the night
I need your body by my side
Taking my hand, taking my soul
That's all I wanna let you know

Calling your name
All through the night
Don't let me down and let me shine
Taking my hand, taking my soul
Give me one night before you go

The love between us
Has proven magical
Has proven invincible
Don't make me cry...

I can't believe
You make me feel this way
I'm begging you to stay
I'm going insane...

You, you can't deny
My love feels so strong
You can not find it
I, I can not wait
For love any more, more, more, more....

Calling your name
All through the night
I need your body by my side
Taking my hand, taking my soul
That's all I wanna let you know

Calling your name
All through the night
Don't let me down and let me shine
Taking my hand, taking my soul
Give me one night before you go
