When you hide next to me with your eyes up close to  
me

I hear footsteps in the dark when you hijack my heart

Cool breeze down the hall i can feel you breathe  
outside my door

Bang bang bang on the wall from dusk 'til dawn

Do do do do do do do do do

Bang bang bang on the wall from dusk 'til dawn

Do do do do do do do do do

Bang bang bang on the wall from dusk 'til dawn

When you sense you're not alone

And the darkness starts to moan who's there?

Shadows all around but you don't make a sound

Voices in my head playing like an echo echo

Bang bang bang on the wall from dusk 'til dawn

Do do do do do do do do do

Bang bang bang on the wall from dusk 'til dawn

Do do do do do do do do do

Bang bang bang on the wall from dusk 'til dawn

Do do do do do do do do do

Bang bang bang on the wall from dusk 'til dawn

Do do do do do do do do do

Do do do do do do do do do

Bang bang bang on the wall from dusk 'til dawn

Do do do do do do do do do

Bang bang bang on the wall from dusk 'til dawn

Do do do do do do do do do

Bang bang bang on the wall from dusk 'til dawn

Do do do do do do do do do

Bang bang bang on the wall from dusk 'til dawn
