"Another Breakfast With You"

I don't want to fight, just want a piece of your life
Oh, if you come out to play
I don't want you to say anything
I didn't feel a thing when you told me that
You didn't feel a thing when I told you that
I didn't feel a thing, another breakfast with you

I don't want to fight, just want a piece of your life
Oh, if you come out to play
I don't want you to say anything
I didn't feel a thing when you told me that
You didn't feel a thing when I told you that
I didn't feel a thing, another breakfast with you

Did you ever fall in love?
For a quarter of an hour or above
