He met her in the fall
He took her to a movie
And when they'd done it all
He took her to a movie
And from the hospital
He took her to a movie

But so did I

And when her heart was sad
He took her to a movie
She's all he's ever had
He took her to a movie
And should their love turn bad
He took her to a movie

But so did I

I think she's been alone
He took her to a movie
When they cut off the phone
He took her to a movie
And when her cover's blown
He took her to a movie

But so did I

There's nothing on TV
He took her to a movie
But she's the one for me
He took her to a movie
We're at number three
He took her to a movie

But so did I
