"I'm With The Pilots"

Visit "[I'm With The Pilots](#)" on MotoLyrics.com

Time in hands, with the pilots and the traveling bands
When you're down there, don't feel down an' out
You have something you can smile about
Coke or gin
Why are you boys frownin'? Have you lost something?
The solution that you have for me
Will invalidate my guarantee

Sell something to someone you love
Not someone that you don't
Even though

Six O four Belgian teachers and the cosmonauts
When you're down there, don't feel down an' out
You have something you can smile about
Holding hands, rocket scientists revise their plans
The solution that they have for me
Will burn me up on re-entry

Sell something to someone you love
Not someone that you don't
Even though
