Traffic things and power lines
Cables on the ocean floor

Traffic things and power lines
Going out to number four

There's a photo hidden on page four
Has the halo around your smile, think fast

They say that play, that fallout is a must
Still you keep on keeping on past the kids

Your the boss from behind your eyes
With, looking for the cherry on the ice

They say, that play, that fallout is a must
Still you keep on keeping on past the kids
And still you keep on keeping on past the kids
