### "Midnight Strikes"

Dark it's oh so dark  
Fear comes creepin  
The nightmares bout to start  
Steps, its him again  
He's got that hunger, she can't comprehend  
Hush now, you need to hush now  
He whispers "look who's coming now"

Midnight strikes in the darkest night of her life, she  
cries  
All her dreams are dyin'  
Midnight strikes in the darkest night she's in tears  
She hears a million angels screamin' in pain

A child she's just a child  
But that don't stop his mind from runnin' wild  
Cold she's oh so cold  
So helpless as evil unfolds  
Hush now, you need to hush now  
He whispers "look who's coming now"

Midnight strikes in the darkest night of her life, she  
cries  
All her dreams are dyin'  
Midnight strikes in the darkest night she's in tears  
She hears a million angels screamin' in pain

Midnight strikes in the darkest night of her life, she  
cries  
All her dreams are dyin'  
Midnight strikes in the darkest night she's in tears  
She hears a million angels screamin'

Midnight strikes in the darkest night of her life, she  
cries  
All her dreams are dyin'  
Midnight strikes in the darkest night she's in tears  
She hears a million angels screamin' in pain
