This song vision
That sooner or later God will come for us all
Got nothing

The clock's unwound
My next scheme
I chose

I'm set up, and I'm finished
I can say that with conviction
Wondering where I went wrong
If I've done anything at all

I was set up from beginnings
I could prove it, but I don't have to
Sure, I've done a lot of things wrong
But you haven't seen anything

The rest ha ha ha
I don't know a shoulder that could handle the weight
Call in

I'm set up, and I'm finished
I can say that with conviction
Wondering where I went wrong
If I've done anything at all

I was set up from beginnings
I could prove it, but I don't have to
Sure, I've done a lot of things wrong
But you haven't seen anything
