Angry youth  
Mr. Elite  
Your older now  
Inside your head lives an old scene  
Mr. Punk  
Sad and hating everyone  
Your excuse is old  
The way you felt has left you hating yourself  
Cause everyone is so confused  
You never worked for a cent  
Self-destructive you pay your debt  
Cause you miss another time  
When all your friends were divine

Now all of them have gone or changed  
Do you still live in angry days?  
But when you've lost someone you love  
When your mask is taken off  
Does life cut you down to size?  
Does it open up your eyes?  
Beacuse they all have found their way  
As you struggle through your maze  
You built those walls of hate  
Don't tell me it's too late
