Silent again
When spoken their is friction and conflict
Why do we rub each other wrong

Maybe we've known each other too well for too long
You and I have heard each other speech before

Are these words that i said
The same words that you heard
We can only agree to disagree in disharmony

Is it too much likeness or indifference
Well the answers in the question isn't it

The deepest cut of all comes from a trusted friend
But I'm sick of it all I can't listen
I wish that all of it would end
You cut me off
I cut you down serrated words

Are these words that i said
The same words that you heard
We can only agree to disagree in disharmony

Let's stop repeating the lesson
We've been through thick n' thin
I consider you a friend
Though it's hard for me show
Everytime you hear this song you'll know
It's not just the business
We know much more exist
Let's end the bad notes and the dis'chords
We'll tune our attitude and realize a personal reward
