United forever in vast, endless space
created in struggle by unhappy race
we're sunrise of freedom
we're frozen in ice
united forever in great Russia's embrace.

From the Arctic Circle
To the southern seas
deserted forests
neverending steps
The unbreakable union
of fraternal states
united forever in Great Russia's embrace

Slavsya, Otechestvo nashe svobodnoye,
Slavsya, strana moya! My gordimsya toboy!

The rise - the prisoners of starvation

The rise - the damned of the Earth
let's get them together
let's break us free
the world is changing
At it's core

long live great Russia's motherland
built by the people and their mighty hands
long live young nation
united and free
shining in glory
for all men to see

Slavsya, Otechestvo nashe svobodnoye,
Slavsya, strana moya! My gordimsya toboy!
