She's sliding, she's sliding  
Down to the dregs of the world  
She's fighting, she's fighting  
The urge to make sand of pearls

Heaven can wait  
And hell's too far to go  
Somewhere between what you need  
And what you know  
And they are trying to drive  
The escalator into the ground

She's hiding, she's hiding  
On a battleship of baggage and bones  
There's thunder, there's lightning  
And an avalanche of faces you know.

Heaven can wait  
And hell's too far to go  
Somewhere between what you need  
And what you know  
And they are trying to drive  
The escalator into the ground

And you left your credentials  
In a Greyhound station  
With a first aid kit and a flashlight  
Going to a desert unknown

Heaven can wait  
And hell's too far to go  
Somewhere between what you need  
And you know  
And they are trying to drive  
The escalator into the ground
