Help me to see  
What it's all coming to  
Crumbs on the table  
And mud on these shoes  
Treading so long  
I can't see where we've been  
Tracks on the trail  
And nails digging in

Who's to say it's all for the best in the end

Some hands will rob you  
And some hands will beg  
Some say they'll stay  
Til the last dying day  
But if actions can't speak  
And words cannot do  
What ten thousand armies  
Can't even fight through

Who's to say it's all for the best in the end  
Who's to say it's all for the best in the end
