

## Laika "Starry Night"

Visit "[Starry Night](#)" on MotoLyrics.com

It is night  
And life moves  
At a new pace  
The air is still  
The earth sleeps  
We move with the grace  
Of the moon sweeping  
Through the clouds  
It is night  
And life moves  
At a new pace  
The air is still  
The earth sleeps  
We move with the grace  
Of the moon sweeping  
Through the clouds  
One by one the stars  
Break through  
One by one the stars  
Break through  
One by one the stars  
Break through  
One by one the stars  
Break through  
One by one the stars  
Break through  
One by one the stars  
Break through  
One by one the stars  
Break through  
One by one the stars  
Break through  
One by one the stars
