Comes the morning with scarlet and black for you  
maybe  
Past the sun hides the one with fires anew  
Soon to be gone, morning comes more for me lately  
Comes the morning with scarlet and black for you to

Oh, do they come there anew

Comes the morning with sorrow  
Smile with a heart full of tears  
Nathalie comes the ones of tomorrow  
With the fireflies there

Comes within, comes without, what's the scarlet about  
And the one from the sun for his fires and few  
Soon comes the sun, soon comes the morning here  
baby  
Comes the morning with scarlet and black there for you

Oh, do they come there anew

Comes the morning with sorrow  
Smile with a heart full of tears  
Nathalie comes the ones of tomorrow  
With the fireflies there

Ends the night for the pauper  
Like a life full of years  
Nathalie tell me then shall we bother  
With the fireflies there
