

## Lake Of Tears

### "Crimson Cosmos"

Great cosmos, eternal ocean, spring forth now colder  
motions, break dawn now, break  
new day, sweet silent colder changes

Lay still night in the forest, bring fall now, bring the  
ever rest, cold silence  
no emotions, feel changes through the ocean

One went to seek the loss, one went to seek the darker  
side of us  
One went to seek the cross, only to find a crimson  
cosmos

Great cosmos, crimson ocean, waves riding empty  
motions, bring twilight, bring  
new night, now silent demon sleeping

Lay still night for the angels, no laughter or no angers,  
cold silence, no emotions  
Feel changes through our ocean

One went to seek the loss, one went to seek the darker  
side of us  
One went to seek the cross, only to find a crimson  
cosmos
