### "Christmas Is Near"

Visit "[Christmas Is Near](#)" on [MotoLyrics.com](https://MotoLyrics.com)

A star shines bright above the cold world  
I throw my heaviness over the altar  
up above somebody knows me  
up above somebody's watching

I press my face up to the sky  
I feel like I am awake for the first time  
ruby reds and frost on the trees  
candles flickering in the strange melody

oh oh oh Christmas is near  
and the future is bright  
oh oh oh Christmas is near  
come on see the light  
oh oh oh Christmas is near  
and my hope comes alive  
oh oh oh Christmas is near  
come on let the light fill us tonight  
don't be afraid it's not too late

silver glistens everywhere  
it's only right now how we can make it  
beautiful, beautiful

oh oh oh Christmas is near  
and the future is bright  
oh oh oh Christmas is near  
come on see the light  
oh oh oh Christmas is here  
and my hope is alive  
oh oh oh Christmas is near  
come on see the light open your eyes  
we'll make it I swear
