Comin up where I'm from life gets a little crazy
But I have no regrets cuz it made me
Show respect is how my abuelita raised me
To always represent myself like a lady
And when them haters used to talk a lot of stuff
They only jealouse cuz they wanna be like us
Whether I'm wrong or right they stick by my side
My homegirls for life

[Chorus]

Showin love to all my homegirls round my way
Got nothin but love for ya
Cuz we tight like family and been thru everything
Girl we been thru everthing
Showin love to all my homegirls round my way
Can't believe we made it thru the good times and the
bad times
You was always down for me

Real homies always ask what's good wit you
Real homies are the ones tellin you the truth
Real homies even roll when they know you wrong
My real homies know that this is their song

Girl I don't know what I would do if you werent around
When them things wit my man had to go down
When I needed just to talk you would listen
Wipe my tears and then till me I was trippin
Homegirl for you I would do anything I can(you know I
would)
When you had your baby I was there to hold your
hand(did all I could)

Whether I'm wrong or right they stick by my side
My homegirls for life

[Chorus]

Showin love to all my homegirls round my way
Got nothin but love for ya
Cuz we tight like family and been thru everything
Girl we been thru everthing
Showin love to all my homegirls round my way

Can't believe we made it thru the good times and the
bad times
You was always down for me

Real homies always ask what's good wit you
Real homies are the ones tellin you the truth
Real homies even roll when they know you wrong
My real homies know that this is their song

All my chicas, and mis primas, mis hermanitas, and the
single mamisitas
Mis amigas, and mis tias, mis sobrinas, hold it down
for latinas
All my chicas, and mis primas, mis hermanitas, and the
single mamisitas
Mis amigas, and mis tias, I'm down for you and your
down for me

Showin love to all my homegirls round my way
Got nothin but love for ya
Cuz we tight like family and been thru everything
Girl we been thru everthing
Showin love to all my homegirls round my way
Can't believe we made it thru the good times and the
bad times
You was always down for me
