What about you
what's going on
Baby there's someone
That I used to know is gone
What about us promise we made
We said that we I'll never die
We try to work it out

Chorus;
So tell me why
Am I still hurting inside
What am I gonna say
To make it better
Now or never
Do or die
What am I gonna do
To make this love last forever
I still believe in what we said is true
What about you

What about love
Till death do us part baby
Is there still a place for me inside your heart

What about dreams
Are they still a lie
We said that they will never die
Try to work it up

-repeat chorus-

Why am I still hurting inside
Why are we still living a lie
What am I gonna say to make it better
Is now or never do or die
What am I gonna do
To make this love last forever
I still believe in what we said is true
If only I could make you feel it too

What about you
What about you

Yeah yeah
What about you baby
What about you baby
What about you
