Chorus

We done hit a lick, open up shop

Clear the block, we bout to make this motherfucker hot  
x2

[Uzi]

The catie was the toolie that we chose for duty

Came up on some bricks, the Mob and PS in some  
gangsta shit again

The Bay and gumbo connectin, bloody murder

Left him on the curb, heard he smoked plenty herb

That's the brother of the nigga in the last song

We gots to do em, talkin to niggas don't last long

Get your brother spanked takin it back, settin shop

Watch it rock, clear the way cause I'm ready to spray

Uzi man represent raw until I die

Parkway, raise up, where we hang all night

On the flight, Two For One's got them blocks on bump

Heads up, here the law comes (woooooo)

[Billy Bavgate]

Kaboom, I'm Bavgate the cleaner, I'm kickin in your  
door

Everybody freeze, and lay down on the floor

I heard you got some loochie through a hoe

I'm fresh out the penn, I need some dough, I ain't  
playin no more

Cause it's real bitch give up the jewels

'Fore they find your ass stankin in the Oakland hills

[New 9]

Chorus x2

[Glock]

Wholesale, we done rock this nigga's bell

Another legendary gangsta story to tell

Like a rollin over a bounty here

PS and Steady Mobb'n knock the roof off the kitchen

Now I open up shop, the hot potatoes gone for half a  
knot

That's how you do it when everything is a profit  
Then lay it low for a week or four  
Then back door in it's drop, who lookin to score  
Recognize a villian, knock him off his tippy toes I'm livin  
Gotham City, the nappy headed go get em  
Bumpin how you figure, by the young Soulja Slim  
And you know we livin right, now put that corn in the  
wind

[Crooked Eye]

Nigga let's rock it up, any violations we pop it up  
So put the brick on the table nigga, let's chop it up  
Ghetto D, with the Suspects and the M-O-B  
Havin money, stayin strapped with heat  
So nigga buck the cops, cause we settin up shop  
Got the whole block hot from the ice cream shop  
And we sowin it up from the south to the west  
Them Black Mafia niggas and the gangsta PS

[New 9]
