Girl you are to me all that a woman should be
And I dedicate my life to you always

Oh boy i love you so,cant find enough ways to let you
know
And i know you'll stay this way for always

And we both know, that our love will grow
And forever it will be you and me.
Oooo your like the sun chasing all of the rain away
When you come around you bring brighter days
Your the perfect one for me and you forever will be
And i will love you so for always.

Come with me my sweet,lets go make a family
And they will bring us joy for always

A love like yours is rare, it must've been sent from up
above
And I know you'll stay this way for always

And we both know that our love will grow and for ever
It will be you and me.
