Even now I find myself thinking bout what we had  
All this time I wonder why our good love went by  
I feel so empty inside, it's like a part of me died  
There's no place left to hide from this loneliness  
tonight

Chorus:  
Running in circles  
Around and around  
I said running in circles  
And I can't get you out  
Of my mind

You used to be always there for me in so many ways  
My memories are black and white and sometimes  
shades of gray  
I'm trying so hard to find what it is I left behind  
And maybe I'll know in time why my heart can't let you  
go

Chorus

Where does it end?  
Cause I don't know where to begin  
Again and again  
I ask myself why

Repeat Chorus X2
