Imagine you, imagine me
I got a feeling I know how it's gonna be, yea
With just a kiss and then a touch
That leads to everything I want so much
So when you're ready baby just say the word, yea
I'll give you everything I know you deserve
Oh girl I know you've never been loved before
Well let me tell you, I got what you're waiting for

Someone to give you all that you need
Someone to love you
That's what you get with me
Someone to show you how good it can be
Make no mistake about it
That's what you get me with me

Boy, take my hand
Don't be afraid
Your heart is something I could never break
And know for sure, without a doubt
That you got something I never want to live without
So when you close your eyes and drift off to sleep (Drift
off to sleep)
I wanna be the one who's there in your dreams (There
in your dreams)
And when you wake up boy with love on your mind
Just call my name and I'll tell ya what you're gonna find

Someone to give you all that you need
Someone to love you
That's what you get with me
Someone to show you how good it can be
Make no mistake about it
That's what you get with me

Girl I heard in love there's no guarantee
But I promise you just as long as I breathe
I'll give to you a love so true
All you have to do it do it
Come on baby let's get to it

Someone to give you all that you need
Someone to love you
That's what you get with me
Someone to show you how good it can be
Make no mistake about it
That's what you get with me...
