Unidentified Divine Object  
got ME dippin' through the galaxy felling free as a bird  
You're making ME feel good even when I hurt  
i identify your vibes through your eyes  
its deeper

don't depend on the moon and the stars  
for our winters and summers here  
and when the sun sets we gon see it  
it may snow in July and fry in December  
i remember now from where

Unidentified Divine Object  
got ME dippin' through the galaxy felling free as a bird  
You're making ME feel good even when I hurt  
i identify your vibes through your eyes  
its deeper- much deeper than space

like a carousel a spinning spell  
what YOU do to ME  
said it ain't nobody  
down her gun take what's been promised to ME- no way  
it matters none  
now that I'm under your spell

conversations with myself won't end  
no one understands ME  
seems like I'm the only one to talk to  
these spirits running through my soul  
they know  
do they come from my true home  
truth is no enemy and fool ain't my clone

close encounters are the only kind
