I never believed in the word lonely  
Even when I found myself all alone  
I never needed someone else to want me  
To make me feel wanted  
'Cause deep inside I've always known  
Who I am  
All I am is

[Hook:]

True to me  
Faithfully  
In a world where lies can let you down  
I pick myself up off the ground  
'Cause I'm true to me  
Honestly  
I've wrestled with conformity  
And all that I can be is true to me

I always believed what people told me  
Everyone tells you what you want to hear  
I always thought that someone else would save me

But you can only save yourself  
And nothing's ever been so clear  
Like an open road  
I call my own

[Hook]

[Bridge:]

And it feels like  
The sun is here  
The sky is clear  
And there's nothing but the smell of the rain  
That's come and gone

[Hook]
