In the comet we found there was more than simple combinations of ice dust and gas there were parts from a circus and parts from party dresses.

Now the best explanation for this is someone has a party  
On another planet and we're not invited.  
The host has probably read the memories of endangered beautiful elephants.  
I know i'm mumbling crazy honey, but i can't sing you love songs now.  
Those songs are like sleep to us; necessary but it has to wait.

Cause first i need to see what this comet is.  
Primary goal: get some answers.  
And search in labs after good results.  
Who do you think you are you're not a scientist.  
You just clean the floors here.

Nothing is mine and nothing is forever.  
My dream last night  
Might as well just be a clever act.  
No we never found a party dress  
And a circus.  
[x2]

And a thought just hits me about us.  
Of course we are.  
Why didn't i think of this before?  
Of course we are we are stardust.  
We are stardust  
We are stardust  
Of course we are, yea ey!

I know i'm mumbling crazy honey but, i can't sing you love songs now.  
Those songs are like sleep to us; necessary but it has to wait.

We are stardust  
We are stardust  
I know who we are we are stardust...
