"That Day"

Visit "[That Day](#)" on MotoLyrics.com

That day I lost my head
All the things would turn inside out
Everything just happened on that day
So much that I couldn't understand

Tell me that I can't go wrong
Let's stay awake tonight
Cause I still see the light
The light
The light

That day I walked the streets
Walked the line like on a secret map
Someone must have drawn in my head
Leaving signs that I couldn't read

Tell me that I can't go wrong
Let's stay awake tonight
Cause I still see the light
The light
The light
