Baby it's you
No doubt about it
Baby it's you
And it always will be

Watching your face from a distance
As you're walking down a busy street
There's always something about you
My heart just skips a beat

Still couldn't say how I knew right away
But somehow I made up my mind

Baby it's you
No doubt about it
Baby it's you
And it always will be
Baby it's you
Nobody else
I can't explain it
I just know that, baby, it's you

Wasn't I lucky to find you
And to find you fit me like a glove
Someone you never laid eyes on
And a moment later, love

I couldn't say what it was about you
But I knew it had to be right

Baby it's you
No doubt about it
Baby it's you
And it always will be
Baby it's you
Nobody else
I can't explain it
I just know that, baby, it's you

Sometimes my mind has a mind of it's own
Drifting off into the blue

Ask me what I could be thinking about
And I tell you, Baby it's you
