Do you think you've found a way  
To carry on and make me stay  
I'm sorry but I have to let this out  
Before I fall apart and starts to shout  
That it's too late to "cry-forget-forgive"  
I may be hurt and but born to live  
You've given me enough to tip the scale  
But never quite enough to pay the bale  
Cause you make me bleed  
You put a chill right in my soul  
It's a kind of greed  
If you never gave, just stole

Damn you  
For making me believe I was special  
For breaking everything that was joyful  
You let my love go-  
Cause it doesn't live hear anymore  
Damn you  
For everything I used to believe in  
Was faded with you lies and decieving  
You let my love go-  
Cause it doesn't live here anymore

I don't want to start again  
I don't want to feel that pain  
I'm gonna leave  
I don't want to start again  
I don't want to feel that pain  
Cause I believe in me

There is nothing left to say  
And there's no reason left to stay  
You showed me what I really had to know  
You showed me quite enough to make me go  
Now do you feel the pain-  
I feel the same  
It come and goes right back again  
It's carving like a knife within your heart  
And when you take it out it makes a scar  
And if it makes you bleed

It's a sign of being mortal  
It's a kind of greed  
For a flower without water

Damn you...
