Another day have seemed to gone by
I can't help it anymore
But what's the crime
If I am walking round on a cloud
I've never felt this way before
I fall into this dream
Here in my bed
A sound is running round inside my head

Fairys flying in the sky
Like butterflies from Avalon
Fairys telling me at night
You're the one
Yeah, they tell me
That you're the one

And I've been waiting
For all my life
On this kind of love
Every minute, every day
I cursed the heaven
I even swore I'd never be loved
Now it takes my breath away
I fall into you're arms
Here in my bed
A sound begins to spin inside my head
I tried to see what's right or wrong
But the answered came to me
Like in a song

Fairys flying in the sky
Like butterflies from Avalon
Fairys telling me at night
You're the one
Yeah, they tell me
That you're the one
