

Lamb **"Bonfire"**

Visit "[Bonfire](#)" on MotoLyrics.com

Have you ever wondered why those days exist
When life just seems to be a conspiracy against you?
I don't know where the answers lie
But I try not to get hung up on the questions

And I burn like a good bonfire
In whatever I do
I burn like a good bonfire
And I know I'll come through

The time is long overdue for us cleaving all of our souls
We all get so complicated in our lives

When walking just walk
When sitting just sit
When being just be
Above all don't stray from your chosen path

Burn like a good bonfire
In whatever you do
Burn like a good bonfire
And I know you'll come through

Burn like a good bonfire
In whatever you do
Burn like a good bonfire
And may peace come to you

The time is long overdue for us cleaving all of our souls
We all get so complicated in our lives

Burn like a good bonfire
In whatever you do
Just burn like a good bonfire
And I know you'll come through

Burn like a good bonfire
In whatever you do
Burn like a good bonfire
And may strength flow through you
