"Build A Fire"

Visit "[Build A Fire](#)" on MotoLyrics.com

Where is my heart
What took it away from me
Right from the start
Thought it was mine to keep

Where are the days
Where dreams came so easily
Thought they would stay
Thought they would always be

Gonna build a fire
Set it all aflame
Build it higher and higher
Find my way again

So now I know
The road isn't always straight
You die or you grow
Play games with the hand of fate

Gonna build a fire
Set it all aflame
Build it higher and higher
Find my way again, again, again, again

Gonna build a fire
Set it all aflame
Build it higher and higher
Find my way again, again, again, again...
