"Little Thing"

Visit "[Little Thing](#)" on MotoLyrics.com

There's so many things that we miss in our everyday
lives

We're so busy hustling bustling chasing faraway
dreams

We forget the little things

Like blue skies, green eyes and our babies growing

Like rainbows, fresh snow and the smell of summer

We forget to live

Give us eyes like children so we live each day as our
first

We're so sure we know so much that we forget to listen

Then we want the fickle things

Like cheap thrills, fast pills and constant consumption

Like CDs, TVs and cars that speak our name

We forget to live
