Then you wake

Heart kept in the body bag, pathetic  
Picture framed obituary faded in the attic  
A shadow of someone you used to be

You've seen so many in this way  
They swore you'd never become the machine  
A long forgotten memory

Everything you ever wanted  
Everything you never had  
Everything lies forgotten and dead  
Everything turns to nothing

Another day, another turn from the grave  
Is it worth everything that you gave?  
What a beautiful way to waste away?

Consumed by dependency  
A lesson in despondency

A long forgotten memory

And then you wake

Everything you ever wanted  
Everything you never had  
Everything lies forgotten and dead  
Everything turns to nothing

And then you wake  
And then you wake

How quickly the master turns into the slave  
Slowly succumbing with every dying age

Everything you ever wanted  
Everything you never had  
Everything lies forgotten and dead  
Everything turns to nothing  
Everything turns to nothing
