

## Lamb Of God "Grace"

Visit "[Grace](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Broken, broken in will  
Your past is leaving, disappearing misery saves  
Choking, pain is a thrill, rage is instilled  
Compassion's a cage

Forgiving the father  
Read the story of my skin  
I'll be the martyr  
Falling from his grace again

Stronger, sooner or later we crawl our way back  
Into our favorite hole

Troubles swallow the savior  
A violent way to his highest goal

Forgiving the father  
Read the story of my skin  
Tell me more about the man I should have been  
I'll be the martyr

Falling from his grace again  
Falling from his grace again  
This is where the end begins  
The end begins

Falling from his grace again  
Falling from his grace again  
This is where the end begins
