Violence a natural reaction in a society whose  
advances are limited to its new technology;  
different only in the current mode of destructive intent.  
Date has replaced real life in this world, no hope for the  
stop of "progress."  
Inevitable bio-link implant will replace the feel of  
human touch.  
All memory surrogates downloaded bought & sold, no  
true sense  
of self. Impending sensory death looming near.  
A number, this is what you've become. Life digitized  
itemized commodified.  
Ha, ha, ha, this is what you work for...
