and i have visions  
like scars are in the sky  
boiling water is running from your eye  
and all our trouble  
cannot be gone too soon  
a cowboy on the moon  
and i am stupid  
i clutter up my mind  
i'm always sorry  
for somebody left behind  
and i will write you  
when i can find the time  
a cowboy on the moon

when i was little  
we gathered round the set  
remote controls  
were not invented yet  
an historic moment  
and now i have two pets  
a cowboy on the moon  
the blessed buttons  
and the sacred sandwich  
a happy hamper  
in which to put my clothes  
a texas spaceman  
and a boy named buzz  
a cowboy on the moon
