"Cowboy On The Moon"

And i have visions
Like scars are in the sky
Boiling water is running from your eye
And all our trouble
Cannot be gone too soon
A cowboy on the moon
And i am stupid
I clutter up my mind
I'm always sorry
For somebody left behind
And i will write you
When i can find the time
A cowboy on the moon
When i was little
We gathered round the set
Remote controls
Were not invented yet
An historic moment
And now i have two pets
A cowboy on the moon
The blessed buttons
And the sacred sandwich
A happy hamper
In which to put my clothes
A texas spaceman
And a boy named buzz
A cowboy on the moon
