You lay around the house  
Nothing much to bark about  
Jump onto the bed  
Just bones and squirrels inside your head  
This is the only life i see  
For you

And if i gave a crap  
Would that show you where my head is at  
I would ride the moon  
And even if it comes too soon  
I could fall for you  
And you could fall for me

So we go all to the shows  
And happiness is all we know  
How it got to you  
And how it got to me too  
I wish i never knew  
(about) my blue wave

And william called and tried  
To tell me that his sister's boyfriend has  
Just died  
He's not sure what to do  
And i'm not sure what to tell him he should do  
Sometimes william we're just screwed  
(in) my blue wave

So what's the girl to do  
Sits on the couch and she's feeling blue  
Shakes it in the cup  
And she doesn't mind if it stays up  
Up up oh yeah  
Never mind the world  
My blue girl

And the best is yet to come  
You may think you are the only one  
To never get it right  
Just stick around on this lovely night  
And we may be amazed

By my blue wave

To conclude this interview  
Many facts and fictions you construe  
The dog gives you the paw  
You pat his head and you wipe his jaw  
He's the only one who knew  
(about) my blue wave
