L was to young to know  
That this was my life  
L thought music was no future  
It's just a game  
We both been through sun and rain  
Now I'd say were on top  
But much remains

They held my hand  
Sometimes they still do  
When I'm weak  
Because of you

L will never leave you  
For what people write  
L think we'll stay together  
As long as it feels right  
Our life's been up and down for years  
But I think our love is to strong to take away

They held my hand  
Sometimes they still do  
When I'm weak  
Because of you

They held my hand  
Sometimes they still do  
When I'm weak  
Because of you

I will never leave you
