You have got your troubles

And I have got my problems

And we're never gonna get a solution

No matter how hard we try

Our time is only passin' by

We'll never get a revolution

I know, we can't, change the world today

No matter what we do

I know

We got to be strong

I know

We got it all wrong

Planet earth is spinning

With a thousand miles per hour

And there's nothing we can do about it

A total mass suicide could never help us to survive

But we're to stupid to believe it

I know, we can, save the world today

But someone has to pay

I know

We got to be strong

I know

We got it all wrong

ADL rap

A total mass suicide could never help us to survive

But we're to stupid to believe it

I know

We got to be strong

I know

We got it all wrong

I know

We got to be strong

I know

We got it all wrong

We got it all wrong
