Come walk alongside me now  
Let's not stray  
Your hand is warm in mine  
When on this path  
You and I

Come walk me to your house  
Make me stay  
Your sweetness leaves me trembling  
Let's be fine  
You and I

Plan to  
Tend to  
Wear out my bridal shoes  
Take me through  
Dirt and waters  
They'll not stop walking  
Not stop walking

I come walk alongside you now  
Come what may  
I'll carry you - you'll lift me  
It's heavy though  
You can fly

Let's take the path not taken  
Let's away  
We're not alone on this one  
We're quite okay  
You and I

Plan to  
Intend to  
Wear out my bridal shoes  
Take me through  
Dirt and waters  
They'll not stop walking  
Not stop walking
